DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination about a ratio generator in which a ratio is selected programmably for the ratio generator. The programmed ratio is selected based on the clock frequencies of the two domains and timing signals that are based on the selected ratio are then used to control timing of the data transfer between the two clock domains.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
